

CERTIFIED ZOOM ROOM PRODUCTS

SHURE

ENABLING ZOOM ROOMS

Shure has built the next generation of audio products that power collaboration in the workplace. Audio quality is critical to effective unified communication for meetings of any scale, from a one on one discussion to a large board room.

Enabling Zoom Rooms was a natural step we've taken to expand our presence in the Unified Communication market with our current and future solutions. We deliver our mission of extraordinary sound to leading unified communications platforms like Zoom.
